KEEP
THE PORT OF NEWARK

"WHERE WATERWAYS, RAILWAYS, HIGHWAYS AND
ARWAYS MEET"

A municipal development representing an investment by all interests of \$80,000,000.00.

Direct connections with three major trunk line railroads and interchanging connections with all trunk lines operating out of the metropolitan area.

Served by modern superexpress highways to all points through direct connections with the national highway system.

Adjoins Newark Airport, the official eastern airmail terminal and the world's busiest center of commercial aviation.

Seaplane base will connect directly with overland airways and with Bermuda, West Indies and South American ports.

Business districts of Manhattan within twenty minutes by motor via Pulaski Skyway and Holland Tunnels.

Geographically the most strategic point on Atlantic seaboard for trans-shipment of freight and cargo.

Modern marginal type docks with facilities for operating from car or truck to shipside unparalleled.

Because of proximity to the world's greatest market it is the potential center of distribution in the East.

Factory sites and storage accommodations available on attractive terms and under highly advantageous conditions.
